

# Lighting for every personality

Contemporary Italian design meets the ancient craft of blown glass in De Majo's exquisite decorative lamps, chandeliers and fixtures. Cheerful, bright colors complement crisp geometric shapes with detailed polished chrome, gold and nickel. The De Majo line of products includes the popular Polipo, Techno and Girasole collections.

## PERONI

The Peroni collection uses glass shade pendants to provide direct or ambient lighting. These modern pieces are offered with frames finished in chrome, with clear cords and in a wide array of colors including white, cobalt blue, amber and frosted glass. The Peroni collection adds flair and style as a wall mount, as a floor lamp or as a wall sconce.
